BJScripts - Bug #1501

Module Export Overwriting

2015-10-22 04:37 AM - bjcasey

Status:	Rejected
Priority:	Normal
Assignee:	
Category:	
Target version:	
vbulletin_issue_id:	

Description

Change Module_Information to be two files. One provided by me, the other maintained by the user. This will prevent the patcher from overwriting their information.

History

#1 - 2017-07-06 01:28 PM - bjcasey

- Status changed from New to Rejected

This is no longer an issue with the current version of AstroBot.
