**Description**

12:00:17: OgreCraftDebugging: Item ( Cabalbox Access Pin ) is not available from a fuel merchant.
12:00:20: OgreCraftDebugging: Item ( Coil Conductor ) is not available from a fuel merchant.
12:00:24: OgreCraftDebugging: Item ( Undertok Sentry Upgrade Parts ) is not available from a fuel merchant.
12:00:24: OgreCraftError: Unable to find device ( Gnemlin Work Bench )..

If you have done the ToT crafting line and have the recipe for Sentry Shock Box then LLL gets stuck trying to craft that item since it is the "highest level" recipe available.

Can we have this recipe ignroed maybe?
