BJScripts - Bug #1905

Hauler does not deliver to Raitaru engineering complex

2017-05-27 12:02 PM - gnosh

Status:	Resolved

Description

I was able to add the custom structure and select it as the dropoff destination but the hauler will not deliver. It will continue to loot from the Orca until it recognizes that it is full, then sits in one spot and doesn't move.
