Description

Add a checkbox to the Settings Page that will ignore setting an asteroid belt as being cleared when the desired asteroids have been mined.

History

#1 - 2017-09-06 12:28 PM - bjcasey

Add a checkbox to save belt cleared timers to the route save file. This would allow you to change the route file and be able to clear a belt again. Default action would be to save to the global file like it is currently doing.
