ISXEVE - Bug #1179

EVEWindow[telecom]:ClickButtonClose no effect

Description

Missions give "Information" windows with just a [Close] button.

echo ${EVEWindow[active]} gives "telecom" (no quotes ofc).

Tried EVEWindow[telecom]:ClickButtonClose and EVEWindow[byName,"telecom"]:ClickButtonClose with no effect, also tried :ClickButtonCancel same.

History

Also tried EVE:CloseAllMessageBoxes with no effect.

I can confirm all of the above. This is a very, very old issue.

OK, since this is difficult to recreate for someone that doesn't run a lot of missions, I have added two DIFFERENT things and I want you to test both (even if one works, please test the other method as soon as you get the window again):

- ▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓
- ▓▓▓▓▓▓▓▓▓▓▓

Once you let me know which (or both) that works, I'll make sure they both work properly. There is a method that I'd prefer to use; however, I wasn't sure if it would work. So, once I get some feedback on which (or both) of these that works, I'll fix both methods.

(NOTE: These windows are handled completely different than any other type of windows. It's really silly design.)

Confirmed both work in .0005
