

BJScripts - Bug #1383

Ssraeshza Temple: Unatu

2015-04-23 11:26 AM - LostOne

Description	
Unatu's stoneshatter is one-shotting some of my toons in weaker groups. Could you have the tank throw up an intercept on Unatu's target as he is casting stoneshatter? That seems to take care of the issue for me. Thanks	

History

#1 - 2015-04-26 05:27 AM - bjcasey

- Status changed from New to Implemented

Coming in Patch # 110.

#2 - 2015-04-27 11:18 AM - LostOne

Doesn't seem to be working... target is still getting one-shot.

Here is the console text:

```
[TOONNAME] Initiating BJ Immunities...  
Is IC_Active: TRUE  
Ignoring broadcast because Immunity Chain is already active and the broadcast wasn't for me.
```

That is from my tank's console who should be casting an intercept. Actually, all my toons show the same message. FYI

- Status changed from New to In Progress

#5 - 2015-04-27 01:48 PM - LostOne

Might be a bigger issue with this... I'm seeing the same error message on Pov Xin'Kaas and have to manually cast my blockers after we jump off the platform. FYI

- Status changed from In Progress to Resolved

I think this was fixed a while ago and I forgot to close this down. If it's still a problem you can repost it.
