<b>Target version:</b>			
<b>vbulletin_issue_id:</b>			
<b>Description</b>			
Would be nice to be able to set the scan radius via the Auto Target object. Might add rescan time as well if you are in there.			
Thanks!			

### History

#### #1 - 2015-06-01 09:32 PM - LostOne

If/when you get to it please consider adding support for ForWho like with load list:

<LostOne> mcp only shows Ob\_AutoTarget option for the load saved list. Is there a way to relay things like Clear and AddActor while specifying who receives it like with load list?

<Kannkor> The only option I am seeing with a 'forwho' option, is loadlist

<Kannkor> There are options to clear, add actor etc, but none of them have a forwho

<Kannkor> You can feature request it and I can probably add it

<Kannkor> "at a later date"

- Status changed from New to Implemented

[https://wiki.ogregaming.com/eq2/index.php/RevisionHistory#Versions:\\_ISXOgre-2016.01.14.2C\\_Patch\\_Version-276.2C\\_OgreBot-17.083.2C\\_OgreCr aft-1.037](https://wiki.ogregaming.com/eq2/index.php/RevisionHistory#Versions:_ISXOgre-2016.01.14.2C_Patch_Version-276.2C_OgreBot-17.083.2C_OgreCr aft-1.037)

Implemented in 17.083

\* MCP/OgreConsole

\*\* Added -AutoTarget\_SetScanRadius and -AutoTarget\_SetRescanTime

\*\*\* Both take 2 parameters.

\*\*\* Parameter 1: ForWho

\*\*\* Parameter 2: New Value

\*\*\* Examples:

\*\*\*\* !c -AutoTarget\_SetScanRadius fighter 50

\*\*\*\*\* This would set any 'fighters' to 50 scan radius.

\*\*\*\* !c -AutoTarget\_SetRescanTime all 250

\*\*\*\*\* This would set everyones rescan time to 250.

\*\* For scripters you can use the API instead of OC if you wish. As a reminder all these API calls can be found by looking in

"Innerspace\Scripts\OgreConsole\Everquest2\Object\_Everquest2CommandParser.iss"

\*\*\* OgreBotAPI:AutoTarget\_SetScanRadius[ForWho,Value]

\*\*\* OgreBotAPI:AutoTarget\_SetRescanTime[ForWho,Value]

17.093 added this:

\* MCP/OgreConsole

\*\* Added -AutoTarget\_SetScanHeight, takes 2 parameters. ForWho and Value

\* OgreBotAPI

\*\* Added method AutoTarget\_SetScanHeight(string \_ForWho=All, int \_Value=5)

LoadAutoTargetList also accepts a second parameter ForWho.

For example:

-LoadAutoTargetList ListName fighter
