Target version:	
vbulletin_issue_id:	
Description Request to add ForWho parameters to OC commands that don't currently have them. Here are the ones I've encountered so far: -ZoneDoor -OptNum I'll update as I find others.	

History

#1 - 2015-09-07 02:55 PM - user01

-Ofol off

#2 - 2017-01-12 06:13 PM - Kannkor

- Status changed from New to Implemented

In OgreBot 17.133

-ZoneDoorForWho <ForWho> <Option>

-OptNum

---> Use: Conversation_Bubble

-OFol <ForWho> off

The -ofol one has always existed. It just accepts: -OFol off (which is everyone), or -ofol <ForWho> off
