BJScripts - Feature - Enhancement #1490

Module Assignment List, edit entry

2015-10-20 06:10 PM - pz

Status:	Implemented		**Start date:**	2015-10-20
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
vbulletin_issue_id:				

Description

It would be super convenient to be able to click an entry in the Module Assignment List, have it load the data into the input area, modify info, click save, add (or overwrite) the entry you originally selected.

Add might actually be the better choice so you can compare new entry to old.
