

OgreBot - Bug #1534

MCP Commands broadcasting to multiple or all ORGs.

2015-11-29 04:35 PM - loopy

Status:	Accepted	
Priority:	Low	
Assignee:	Kannkor	
Category:		
Target version:		
vbulletin_issue_id:		
Description		
I have setup a few ORGs and some MCP buttons such as Zone, Evac, Camp, Deity_Spend to name a few seem to broadcast to all ORGs.		

History

#1 - 2015-12-22 09:16 PM - Kannkor

- Status changed from New to Accepted
- Assignee changed from loopy to Kannkor
- Priority changed from Normal to Low

On OgreConsole Settings if you have [x] Send all OgreConsole commands to IRC checked, it does NOT use your OgreRelayGroup. It sends it to IRC which is then broadcast to the default RG unless the -rg is specified.

I spent a few hours tonight looking into it and it's a much bigger task than I'm willing to try to change without breaking a lot of other things at the moment. For now don't use that option if you want specific ORG.
