#### Description

Kannkor,

just posting this as a follow up to our conversation today...

Example: if your in a raid with other people and the Illy in your group has a macro for timewarp that sends a groupsay "timewarp in 5" would it be possible to have ogre see that chat message and give the ability to cast certain spells based on your selection from a dropdown list in the ogre setup (if not on cooldown)... this could be useful for other classes as well ie combat mastery, recording vc's ect...
