Description

i do not see many disciplines for a warrior (85) when i do ogre export (or even ogre export all) when i go to add them to the cast stack.

going down a sorted list:

Armor of draconic runes

Armor of timeworn runes

aura od runes disc

bazu bluster

bracing defense

field armorer

forth wind

jeer

knucle crush

knucle smash

lionhearted rally-cry

maelstorm blade

opportunistic strike

punch through

shield reflect

shield topple

sneer

third wind

whorl blade

perhaps these are superceded by aa's? been awhile since i played.

History

#1 - 2016-07-31 05:43 PM - litewave

found the bug in the ability script. it stops scanning combat abilities when it encounters a null combat ability, there are abilities interspersed with null entries...
