Description	
It would be nice to have the # targets box up for single target CAs too	
Example: I don't want to cast a 30s buff if I am fighting a mob with < 30% HP (not named). But, if I am fighting 2+ mobs, I'll cast it if regardless of mob health. So the Cast Stack would look something like this for Dragon Claws	
<ul style="list-style-type: none">• DragonClaws - NamedCA• DragonClaws - CA - #2• DragonClaws - CA - N_HP > 50%

Still hoping for this!

Some other spells that could be helped with this

- Netherrealm
- Dark Infestation
- Acid Storm
- Curse of Darkness
- Draw from the Void
