

ISXEQ2 - Bug #1787

Item: OffersQuest Returning Empty

Description	
When using <code>.ToItemInfo.OffersQuest</code> on an item that has been cached, it is returning nothing.	
Syntax: <code>Echo <text></code>	
I am trying to use it on a lore and legend item, which I think used to work with it.

Also, I thought we had a way to know if a quest item (lore and legend) was no longer needed. eg. we had already examined it

`item.IsQuestItemUsable` is always returning **FALSE**. Shouldn't this return **TRUE** on Lore and Legend items?
