

BJScripts - Bug #1820

Parameter Wizard Quotes

2017-02-11 04:42 AM - bjcasey

Status: Resolved	
Priority: Normal	
Assignee:	
Category:	
Target version:	
vbulletin_issue_id:	
Description in your Input box for the parameters wizard, if you use double quotes anywhere in there before you close them, you get the error Incomplete index @_sQBCustomUserResponse:Set[<code>{This.Text}</code>] for every character you type until you close the double quotes.	

History
