| <b>Description</b>  |  |
| Added January 22, 2015  |  |
| <pre>:SetDuration[#] and :Sell are both giving the following game error</pre>   |  |
| The managers of this station have recently changed the applicable broker fee for this order, and this may take a few minutes to process. The new broker fee in this station will be 2.5%. If you wish to continue trading with these new fees, please try again in a few minutes. |  |
| I am testing this in Jita.  |  |

#### History

Which station exactly are you testing this? (I tried in a station in Kaimon and it worked fine.)

Also, how are you testing this? Have you tried manually adding the item to the window and then doing EVEWindow[SellItems]:Sell ? ...etc..etc.. I need more information on what you're doing, where, etc.

Finally, I think it might be related to the fact that the station has a broker fee. Have you tested in a station without a broker fee to see if it's still an issue?

##### #2 - 2017-04-12 06:03 PM - bjcasey

I have tried manually adding the item to the window and then using EVEWindow[SellItems]:Sell in the main trade hub in Jita and I receive the same error. When I do the same thing in another station in a different region (station has a 30% broker fee) it works just fine and sells the item.

Is this two bugs? Should :SetDuration be trying to sell the item?

- Status changed from New to Closed

I fixed SetDuration in 20180502.0002. If Sell is still buggy, go ahead and make another forge issue. (Fixing "Sell" in stations with broker fees may be difficult.)
