So far, it appears random as to when it gets the proper information and when it doesn't. Yesterday, everything was running fine. Today, it isn't populating the index well at all.

#### #2 - 2017-04-22 10:50 AM - bjcasey

Testing it in a few places today, it appears that it is broken when in a citadel. Stations and space seem to be correctly populating the index.
