Description	
<p>I've been troubleshooting this combo and I can't get it to fire via Ogre using the Auto combo feature. I've gone as far as only had Ethermancy in the cast stack and everything else disabled included pre and post cast spells. The other cast stack has no spells/ca's enabled in it . Both toons have full ogre exports. What I notice is when the Etheralist (starter) casts Ethermancy, there is no output in the console stating that there's a surge for Scorched Earth. I toggled /log on both toons and still no action. Here is the console output when ogre loads showing their available combos:</p> <p>Ascension Combo for me: Erosion --> Wildfire Ascension Combo for me: Ethermancy --> Scorched Earth Ascension Combo for me: Ethershadow Assassin --> Brittle A Ascension Combo for me: Mudslide --> Elemental Amalgamatio Ascension Combo for me: Septic Strike --> Glacial Freeze Ascension Combo for me: Withering --> Frozen Heavens</p> <p>AscensionCombos -> Ascension Combo for me: Brittle Armor --> Ethershadow Assassin AscensionCombos -> Ascension Combo for me: Granite Protector --> Levinbolt AscensionCombos -> Ascension Combo for me: Revocation of Life --> Cascading Force AscensionCombos -> Ascension Combo for me: Scorched Earth --> Ethermancy AscensionCombos -> Ascension Combo for me: Terrestrial Coffin --> Implosion AscensionCombos -> Ascension Combo for me: Virulent Outbreak --> Etherflash</p>	

History

- Status changed from New to In Progress

The problem is, Ethermancy gives no indication it was cast. So Toon1 casts Ethermancy, Toon2 doesn't know they did.

Someone in discord brought it up to the devs months ago and they said they would add it next update or something.. which came and went 5 times over.

- Status changed from In Progress to Resolved

Use the new Ascension Embargo and Combo option.
