Hauler - Single Fleet Member Pickup Option Bug

2017-11-29 07:52 AM - Nerumph

Status:	Resolved	
Priority:	Normal	
Assignee:		
Category:		
Target version:		
vbulletin_issue_id:		
<b>Description</b> When "Single Fleet Member" is selected under the pickup options, the range aproximation ends up being glitched with a debug log of "Warping to [NULL] @ Distance [0m]"  This fleet member is in the same system as the hauler, so system conflict is not the issue.
