

## BJScripts - Bug #2029

### Rename Jetcan options not being preserved in profiles

2017-11-29 05:03 PM - Nerumph

<b>Status:</b>	Resolved

<b>Description</b> Within a specific profile, if I add the "Rename Jetcan" tick and edit the name to its desired format, it will rename the jetcan in that particular session of Astrobot. However, if Astrobot or the client has to restart, this setting is not preserved in the saved profile. No matter how many times the "Save profile" button is pressed, this setting is not added into the saved parameters.
