Description	
Zoning into Proving Grounds always pops up the "Ability Export not found" dialog, whether or not exports have been done inside or outside of server, BG lobby or inside of PGs.	

History

#1 - 2018-02-01 05:44 PM - Scoops

The development version (Version information: Build date: 2018.01.12 - DEVELOPMENT VERSION, Patch Version: 290) is fixed when you zone into the lobby, but not fixed for when you actually zone in to "The Underdepths [Proving Ground]". You get the OgreConsole spam and the Ogre Export Information box pops up.

18:29:12: Server.Character: Ability Export not found. Please 'ogre export' into the console to load an export. Do not zone while it is running.

I guess the wiki is technically correct (it's fixed in the lobby), but we still get the same amount of spam on the screen after zoning in.

I believe I got this fixed a little while ago. Can someone confirm?
