

## ISXEVE - Bug #2130

Bug # 2120 (Accepted): Market Order function is broken

### GetMyOrders and GetMarketOrders not working

2020-02-02 09:59 AM - rogeruk

<b>Status:</b>	Duplicate
<b>Priority:</b>	Urgent
<b>Assignee:</b>	
<b>Category:</b>	broken feature(s)
<b>Target version:</b>	
<b>vbulletin_issue_id:</b>	

#### Description

Both methods are returning NULL - using while loop and never returns anything but NULL (while loop never completes)

```
function main()
{
    variable index:myorder OrderIndex
    Me:UpdateMyOrders
    while !${Me:GetMyOrders[OrderIndex]}
    {
        wait 10
        echo ${OrderIndex}
    }
    echo Found ${OrderIndex.Used} orders
}
```

and similar for GetMarketOrders

```
function main()
{
    variable index:marketorder OrderIndex
    EVE:FetchMarketOrders[34]
    while !${EVE:GetMarketOrders[OrderIndex, 34] (exists)}
    {
        wait 10
        echo ${OrderIndex}
    }
    echo Found ${OrderIndex.Used} orders
}
```
