<b>Description</b>			
<p>If you have multiple characters on the same account and wish to switch between them you currently have to restart the client.</p> <p>I would like to be able to use the client's logout functionality.</p> <p>Idea: New command "cmdLogout" which would log the current character out and return to the character select screen.</p> <p>This would be replicating the functionality from pressing escape, and selecting "Log Out"</p> <p>Thanks!</p>
