Description

Trade Restricted Items. Would be nice to get a boolean flag if an item is trade restricted and maybe even the "restricted until" date. Most common place you see these are from the monthly membership reward when you select crates. The crates will be restricted and if you open them all the items inside will have the same trade restricted date.

If you have some DBC you can buy a crate for 159:

If you don't have any DBC to burn then just let me know and I can gift one of your test toons a crate.

In progress. Just need to compare the crate from when it's trade restricted and then when the restriction is lifted. ETA: 12/26/23

Version 20231212.0009 adds a new iteminfo member "TradeRestrictedDate" (string). I may be able to add a bool and/or other things once the restriction wears off and I can compare the data. But, this really should provide what you need to check if an item has trade restrictions or not.
