#### Description

Easiest one to use as an example, is the guild window ( u by default ), then click the "Events" tab. You can (manually) click and select any entry in there. Looking for a way to do this via script.

<https://cdn.discordapp.com/attachments/550454120520351745/1244818083508523059/image.png?ex=66567eae&is=66552d2e&hm=c17572d385834e94910ab2a7b58f2d2912b90e522b4de33ea8c170d0b40fc049&>

Here's a short snippet that will echo the first 3 entries.

```
variable index:collection:string Options
```

```
variable iterator OptionsIterator
```

```
variable int OptionCounter = 0
```

```
EQ2UIPage[_HUD,guild].Child[page,_HUD.guild].Child[5].Child[4].Child[1].Child[2]:GetOptions[Options]
```

```
Options:GetIterator[OptionsIterator]
```

```
if (${OptionsIterator:First(exists)})
```

```
{
```

```
do
```

```
{
```

```
if (${OptionsIterator.Value.FirstKey(exists)})
```

```
{
```

```
do
```

```
{
```

```
echo "Option #${OptionCounter}:: '${OptionsIterator.Value.CurrentKey}' => '${OptionsIterator.Value.CurrentValue}'"
```

```
}
```

```
while ${OptionsIterator.Value.NextKey(exists)}
```

```
    ;// echo "-----"  
  }  
  OptionCounter:Inc  
}  
while ${OptionsIterator:Next(exists)} && ${OptionCounter} < 3  
}
```
