Description	
<p>Hi BJ,</p> <p>i am currently testing the BJ Quest bot and have some difficulties to kill Raknag despite the fact that it works well with the BJ Movement associated. The issue I encounter is that the zone is not cleaned enough and there is a goblin bookslinger near Raknag that KB my tank to the formulas mob. The fact is that it mess up with the script having the tank bounced like that and ultimately I got a ring blackhole and i am wiped.</p> <p>Could you add a bookslinger kill just before Raknag please ?</p> <p>I put that as a bug, because it prevents me to do the dungeon automatically.</p> <p>(I got another issue when taking the ladder from the first floor, i am stuck in the room but I need to understand what's exactly happening before opening a ticket)</p> <p>Keep up the good work !</p> <p>Ethreyd</p>
