Description	
<p>Hi Kannkor,</p> <p>because i am very lazy, I made a MCP button to launch the /ogre hire script... I use the Ogre_Command command with hire as a parameter. It starts OK, get the harvest from the hunter, then crash. Logs are attached.</p> <p>I can definitely do without but because I know that you really like to fix things, I prefer to report it.</p> <p>Regards,</p> <p>Ethreyd</p>
