- Category set to Broken Feature(s)

- Status changed from New to Closed

- Assignee set to Amadeus

I removed "AdornmentDescription" and "IsReserved" when the Sentinal's Fate expansion was released.   They weren't obvious/easy to update at the time, so I was going to wait and do it later. However, since no one was using them and/or have requested them since then, I saw no reason to spend time on it.

So, for now they don't exist, if you want either added back to the extension, please make a feature request and elaborate on why you need it :)
