

BJScripts - Bug #1392

bj inventory not going back to guild while in raid instance

2015-04-30 11:25 AM - Kicksome

Description		
<p>When using bj inventory for harvesting goblin and Call to GH= TRUE it doesn't call back if the character is in a raid. It seems to work if I'm elsewhere.</p> <p>If I select a tier to harvest, it doesn't seem to end the script, but maybe just logs out and goes to the next character.</p> <p>It looks like when I select "Enable the auto selection of Harvest Tier and ignore any number placed in the boxes above." It will end the script.</p> <p>The message I get is: I am not in a guild hall and there are no guildhalls around me. Ending script.</p> <p>Ending BJInventory Script</p> <p>I tried this on multiple chars who were in the raid instance, they have harvested before with no problem. I manually recalled to home, then ran the script and it instantly recalled to guild hall.</p> <p>It typically attempts to call back to guild hall.</p>
