

BJScripts - Bug #1502

Entity Information Being Overwritten

2015-10-22 04:39 AM - bjcasey

Status:	Rejected
Priority:	Normal
Assignee:	
Category:	
Target version:	
vbulletin_issue_id:	
Description	
Split the entity information file into two files. One that I provide and is received from the patcher. The other that is local to the use and is never patched.	

History

#1 - 2015-11-08 11:32 AM - bjcasey

- Status changed from New to Rejected

No longer an issue now that all entity information has been collected.
