

ISXEQ2 - Bug #1627

Broker Name "Item Name" Not Returning Results

2016-06-17 01:34 PM - bjcasey

Description

Open a broker window and make sure that your cursor is over the window.

In the console type: Broker Name "large polished bone"

It won't return any results, but if you type the name into the EQ2 broker window it will find results.

However, Broker Name "Brown Fossil" will return results.

I've found that "large polished bone" and "bag of gypsum" do not return results when they should.
