Description	
[4044500] ISXEQ2: character.ToActor[] is deprecated. Simply remove it entirely (e.g., <code>\$(Me.ToActor.OnFlyingMount)</code> becomes <code>\$(Me.OnFlyingMount)</code>)	
this shows up as soon as you hit /craft, everytime, simply fix, just letting you know so it can be done.

I updated all of the files/paths I could find as of version 20161215.0003. Is it still happening with 20161215.0003? If so, it might be that one of your support files isn't updating.
