Description

Actually only looking for access to the 'Upgrade' tab.

The 3 accounts of mine you usually use should all have something in there. I'm looking for a way to determine when it is completed. PM me for more info.

Basically crash when dealing with knowledge book. Here is the basic crash report below.

This one also crashes:

```
echo: $!RQ207Page(Mainbus_Knowledge):Child(page_Knowledge_ResearchPage):Child(complete_TopFrame):Child(text_StatusPage_Progress_ProgressText):GetProperty[LocalText]]
```

OK, I fixed the crash with accessing the Knowledge window in version 20170112.0004

However, the way that eq2uiPAGE children are accessed changed in 2016 and doesn't work as you think it does anymore. (See [http://forge.isxgames.com/projects/isxeq2/wiki/eq2uiPAGE_\(Data_Type\)](http://forge.isxgames.com/projects/isxeq2/wiki/eq2uiPAGE_(Data_Type))) It simply uses a # that is the index of the child within the array (between 1 and .NumChildren)

Let me know if you now have access to what you need, or if not, what specific eq2widget type needs more features.

We can close this. I have the information I was looking for.
