

Quest Bot 3.00 BETA - Bug #1785

Quest Bot Create Mode

2017-01-20 07:33 PM - loopy

Status:	Implemented
Priority:	Normal
Assignee:	
Category:	
Target version:	
vbulletin_issue_id:	
Description	
When trying to use the option to test task steps errors are produced in the console.	
<code>_iCreateMode_MaxActiveTaskStep: 4</code>	
21:27:38: [Buffer:QuestBotMain]: QUEST BOT ERROR: The task file you have loaded appears to be empty. Please try again...	
21:27:38: [Buffer:QuestBotMain]: Quest Bot Main Script is shutting down...	

History

#1 - 2017-01-22 10:06 AM - bjcasey

- Status changed from New to Feedback Required

Does this happen every time? How do you reproduce it? I have tried and it works for me.

#2 - 2017-01-22 10:24 AM - bjcasey

- Project changed from BJScrips to Quest Bot 3.00 BETA

#3 - 2017-02-05 10:50 AM - loopy

Yes this happens everytime, on several different PCs, I reproduce it by trying to test a quest step in create mode.

#4 - 2017-02-06 03:38 AM - bjcasey

- Status changed from Feedback Required to In Progress

The issue was the square brackets he was using in his name [] for the task file name. It caused the task file name to fail.

Either you can't use [,] or I try to escape better.

#5 - 2017-02-10 07:44 PM - bjcasey

- Status changed from In Progress to Deferred

#6 - 2017-02-22 05:51 PM - bjcasey

- Status changed from Deferred to Accepted

#7 - 2017-02-22 05:53 PM - bjcasey

- Status changed from Accepted to Implemented

You can't use square brackets in the task file name.
