Description Can I request that you make it so we can camp spot and specialzonespecific for our toons to run onto the portal pads in Ritual Chamber. I seem to spend a large amount of my time in there trying to get them to all behave and go through! We had this feature in Masters Chosen last expac and it was really useful.

Also, there is one in Baron's Workshop that they also fail to follow correctly occasionally. The one to get across the divide. I'll update with waypoint when I next run it if that helps.
