Can be used in a station where you have items in the Station Items and in the Corp Hangar.	
GetHangarItems is returning ALL items in the station including the corp hangars.	
GetCorpHangarItems is not returning any items at all, even though I have items in the corp hangars.	

#### History

##### #1 - 2017-07-12 11:16 AM - bjcasey

The update for the patch on July 11 seems to have fixed the GetHangarItems returning all items in the station. However, GetCorpHangarItems is still returning NULL.

##### #2 - 2017-09-01 07:41 AM - bjcasey

ERROR:: EVEInvChildWindow:OpenAsNewWindow[(null)] -- 'TreeDataStructureCorp' is an unknown inventory type -- please report

I get the above message when inside of a citadel.

- Status changed from New to Resolved

The initial bug report should be fixed in 20180417.0004. I didn't test GetCorpHangarItems in a citadel, since I don't have access to a corp hangar in a citadel. But -- if it's still an issue, create a new report.

Otherwise, this same fix may also resolve other issues related to Corporation Offices, Corporation Hangars, etc.
