Category:		Estimated time:	0.00 hour
Target version:			
vbulletin_issue_id:			

Description

When you right click something, such as an NPC in the guild hall.

File:

eq2ui_mainhud_radialmenu.xml

Here is the entire file:

```
[code]
<?xml version="1.0" encoding="utf-8"?>
  <Page alwaysontop="true" BackgroundOpacity="1.000" Name="RadialMenu" RStyleDefault="/FrameStyles.win_gold_menu"
ScrollExtent="117,135" Size="117,135" Visible="false">
  <RadialMenu DataSource="RadialSource" MaximumSize="120,52" MinimumSize="120,52" Name="RadialMenuControl"
ScrollExtent="120,52" Size="120,52" Style="RadialStyle" />
  <DataSource Name="RadialSource">
    <Data Name="Choice1" text=":01575474fbf63870:Menu Choice 1" />
    <Data Name="Choice4" text=":015754748b9cccff:Menu Choice 4" />
  </DataSource>
  <RadialMenuStyle ButtonStyleN="/ButtonStyles.text_button_menu" ItemHeight="18" ItemMargin="4,8" Name="RadialStyle"
/>
</Page>

```

[/code]

```
echo ${EQ2UIPage[_HUD,radialmenu].Child[page,_HUD.radialmenu].NumChildren}
```

```
returns 1
```

```
echo ${EQ2UIPage[_HUD,radialmenu].Child[page,_HUD.radialmenu].Child[1](exists)}
```

```
returns NULL
```

If we could have access to this datasource that would be great! Thanks
