**Description**

'station' datatype only work when you in station .  You can get info about any station when you in dock. bat in space all return null and unnown

**History**

**#1 - 2022-05-14 10:15 PM - Amadeus**

*- Status changed from New to Rejected*

You need to provide more information with regard to what datatype members/methods of 'station' you're trying to use that aren't working.   There are some things that require being in a station and some that do not -- until I know what/how you're testing, I can't tell if there is a probably with ISXEVE or if perhaps what you're trying to do just isn't allowed by EVE itself.

Resubmit if you wish, with more information next time.
