Description

When doing echo `#{BrokerWindow.SearchResult[1].ToltemInfo.NumAdornmentsAttached}` it returns that the ToltemInfo doesn't exist for Consignment types. Could this be added?

For example, I'm trying to compare an item I want to list for sale that has an adornment attached, but some of the search results don't have adornments attached. The picture on the left is the first result and does not have an adornment attached and the picture on the right is the second result and it does have an adornment attached.

Greaves of Absolution 2p

Greaves of Absolution
LEGENDARY

46 Primary Attributes 46 Stamina
 18 Combat Skills
